

Microhabitats Catalogue Application

User Guide

Thank you for using our Microhabitats Catalogue application!

First launch

When opening the app for the first time, you are prompted to select your preferred language. After doing so, the app is ready to be used!

Navigating the catalogue

You can navigate your way around the catalogue by tapping on the item you want to learn more about.

To go back you can always tap the back button on the top left. To take a closer look at an illustration you may tap on the image to enlarge it.

To scroll through the catalogue pages simply do a vertical swiping / scrolling gesture with your finger.

Accessing the menu

To access the sidebar menu make sure you are on the highest hierarchical level of the catalogue. Now, the back button on the top left should have changed to a button showing three stacked lines.

It is now called the menu button. When tapped, the sidebar menu is displayed.

You now have the following choices:

- Catalogue
- Info and Credits
- Settings

To go back to the catalogue content, tap "Catalogue".

To view credits and other information, tap "Info and Credits".

To change your language setting, tap "Settings".
