## WELCOME

INFORMAR is an interdisciplinary project with the purpose to understand and demonstrate the driving forces and potential of integrated forest management approaches under conditions of climate change and related risks. The project aims at building and maintaining a learning architecture between scientists, policy makers and practitioners as a tool to combine both nature conservation and wood production.

## Integrated forest management

- Integrated forest management: aims to integrate measures to enhance the provision of multiple forest ecosystem services at (more or less) the same area
- In INFORMAR focus on the integration of nature conservation in SFM

## News from the INFORMAR project

- Marteloscope network: continues to expand

# Network of Demonstration Sites for Integrated Forest Management

## News from the INFORMAR project

- Marteloscope network: continues to expand
- Research: progress in the analysis of drivers of integrated forest management & Bialowieza Science Initiative (2 presentations!)
- European Network Integrate: 4th meeting

# European Network Integrate

*“The European network INTEGRATE promotes and advances forest management approaches for the integration of nature conservation into sustainable forest management at three levels: the decision-making policy level, the level of forest practitioners/managers, and the level of research and academic knowledge”*

- Initiative driven by country representatives and their topical interest
- EFI facilitates the process within the framework of the INFORMAR project

# European Network Integrate – Members and Events

■ Network member countries

■ Network observer countries/regions

📍 Network meetings

**Bonn:** network kick-off

**Plzeň:** Combining ecology and economy

**Białowieża:** Strategies to deal with bark beetle outbreaks

**Toruń:** Sustainable forest management post calamities

## News from the INFORMAR project

- Marteloscope network: continues to expand
- Research: progress in the analysis of drivers of integrated forest management & Bialowieza Science Initiative (presentations)
- European Network Integrate: 4th meeting
- International Conference
  - Likely end of February 2020 in Bonn
  - Organized in collaboration with international research partners (SLU, BoKu, Uni Freiburg, Russian Academy of Science, WSL & Swiss Forest Lab, Ku Leuven, Uni Padova, INRA)
  - Will include Science-Policy Day & global perspective
  - More information follows soon!
